PROFILE

I have an ability to work with a group, I can integrate APIs of any services into projects (for example: Movie, Store, CRM). I guarantee to complete projects fast and with high quality. I work on myself regularly. I am always ready to learn new technologies.

PROJECTS

Movie Backend API

Technologies: Node.js, NestJS, TypeScript, TypeORM, PostgreSQL, Swagger

- Developed a RESTful API to manage movies, genres, and actors with secure JWT authentication.
- Designed relational database with many-to-many connections using TypeORM/PostgreSQL.
- Modular backend structure built with DDD principles for scalability.

Vacancy

- Built an API for connecting volunteers and workers with role-based JWT authentication.
- Implemented filtering and management of job/worker listings.
- Designed modular architecture for future expansion.

Parking

- Created an API to manage parking spots in Tashkent, including search and reservation features.
- Added filtering and monitoring for parking availability.
- Designed secure and scalable backend following DDD.

EXPERIENCE

Excellent Academy

Programming Instructor

Apr 2025 – Sep 2025

Bulungur, Samarkand

Conducted lessons on algorithm design using Flowgorithm, C, and JavaScript.

Guided students in learning problem-solving techniques, writing efficient code, and building a strong foundation in programming.

LANGUAGES

Uzbek

Native

English

B1

EDUCATION

Foundation and Full-stack bootcamp

Najot ta'lim

Sep 2023 – Nov 2024

Tashkent, Uzbekistan

I first learned algorithms at the Foundation level of programming at "Najot ta'lim" IT learning center. After successfully completing this course, I completed the Full-stack (NodeJs) bootcamp course.
